

**German Ice Report - No. 01**

2018-02-09

CC 11000 21000 31000  
FF 11000  
II 10//0

There is new and thin ice in some harbours and in shallow and sheltered coastal waters. At Schleswig and at Greifswald Wieck there is also up to 7cm thick ice.

**Outlook**

In shallow and sheltered areas, further new ice may form until Saturday, afterwards sea ice decrease is expected.
