Übersicht

In den Schären der Bottenwiek liegt im Norden 20–50 cm dickes, morsches Festeis. Außerhalb des Festeises treibt im Osten sehr dichtes und teilweise aufgepresstes, 10–50 cm dickes Eis. Ansonsten kommt auf See nördlich 64°40'N zumeist offenes Wasser vor, in dem einzelne dickere Schollen treiben. Die restliche Ostsee ist eisfrei.

Overview

In the archipelagos of the Bay of Bothnia, there is 20–50 cm thick, rotten fast ice in the north. Off the fast ice in the east, there is very close, partly ridged, 10–50 cm ice. Else at sea, there is mostly open water north of 64°40'N with some larger drifting floes at places. The rest of the Baltic Sea is ice free.

Bay of Bothnia

In and outside the archipelagos from Piteå to Raahede, there is 20–50 cm thick, rotten fast ice. Further out to Lallinmöyly, Oulu-2 and Johan there is consolidated ice, 10-50 cm thick. Off the fast ice and along the coast in the east, there is very close, 10–50 cm thick ice to the line Kemi-2 – Oulun portti – 12 nm northwest of Nahkiainen – Kalajoki. Large thick and ridged ice floes occur in the area. From

Ulkokalla to Kokkola, there is very close, 10-40 cm thick drift ice. At sea, there is mostly open water to the line Gåsören – Falkensgrund – Kalajok with some floebits and single floes or small ice fields at places.

Ice melt continues with a northerly/northeasterly ice drift.

Norra Kvarken

The area is ice free.

Gulf of Finland

The gulf itself is ice free. In Lake Saimaa, there is rotten ice with many openings.

The ice melt continues the coming day.

Dr. W. Aldenhoff

Information of the Icebreaker Services

Finland/Sweden

Vessels bound for Gulf of Bothnia ports in which assistance restrictions apply, shall when passing latitude 60° 00' N report their nationality, name, destination, ETA and speed to ICE INFO on VHF channel 78. This report can also be given directly by telephone to +46 10 492 7600.

Vessels bound for Finnish or Swedish ports with assistance restrictions in the Quark or the Bay of Bothnia shall, 20 nautical miles before Nordvalen Lighthouse (63° 32.15' N 20° 46.60' E), report in accordance with the instructions for winter navigation to Bothnia VTS on VHF channel 67.

Icebreakers:

OTSO, KONTIO, POLARIS and ALE assist in the Bay of Bothnia. TYRSKY assists in the Lake Saimaa.

Baltic Sea Ice Code
