Übersicht

In den Schären der Bottenwiek liegt im Norden 20–50 cm dickes, morsches Festeis. Außerhalb des Festeises treibt im Osten sehr dichtes und teilweise aufgepresstes, 10–50 cm dickes Eis. Entlang der Küste und Eiskante von Skellefteå bis Kokkola kommt offenes Wasser mit einigen dickeren Treibeisschollen vor. Die restliche Ostsee ist eisfrei.

Overview

In the archipelagos of the Bay of Bothnia, there is 20–50 cm thick, rotten fast ice in the north. Off the fast ice in the east, there is very close, partly ridged, 10–50 cm ice. Along the coast and ice edge from Skellefteå to Kokkola, there is mostly open water with some thicker drifting ice floes. The rest of the Baltic Sea is ice free.

Bay of Bothnia

In and outside the archipelagos from Piteå to Raahede, there is 20–50 cm thick, rotten fast ice. Further out to Lallinmöyly and Oulu-2, there is consolidated ice, 10–50 cm thick. Off the fast ice and along the coast in the east, there is very close, 10–50 cm thick ice to the line Kemi-2 – Holma – 12 nm southwest of Merikallat – south of Nahkiainen.

Large thick and ridged ice floes occur in the area. South of Ulkokalla, there is very close, 10–40 cm thick drift ice. At sea, there is mostly open water off the coast and ice edge from Skellefteå to Kokkola, with some floebits and single floes at places. Ice melt continues with a northerly/northeasterly ice drift.

Norra Kvarken

The area is practically ice free.

Gulf of Finland

The gulf itself is ice free. In Lake Saimaa, there is rotten ice with many openings and partly open

water.

The ice melt continues the coming day.

Information of the Icebreaker Services

Finland/Sweden

Vessels bound for Gulf of Bothnia ports in which assistance restrictions apply, shall when passing latitude 60° 00' N report their nationality, name, destination, ETA and speed to ICE INFO on VHF channel 78. This report can also be given directly by telephone to +46 10 492 7600.

Vessels bound for Finnish or Swedish ports with assistance restrictions in the Quark or the Bay of Bothnia shall, 20 nautical miles before Nordvalen Lighthouse (63° 32.15' N 20° 46.60' E), report in accordance with the instructions for winter navigation to Bothnia VTS on VHF channel 67.

Icebreakers:

OTSO, KONTIO, POLARIS and ALE assist in the Bay of Bothnia. TYRSKY assists in the Lake Saimaa.
